#### **About Asia World Port Terminal**

Built on the vision of a long-term plan to meet the growing development of the country through effective transport infrastructure, Asia World Port Terminal's port facilities was the first local private investment in 1996 as part of a national initiative to develop the Ports of Yangon.

Since then, AWPT has established itself as one of the leading players delivering quality, efficient and professional port services that are in line with international service standards. With trade flows expected to grow in line with Myanmar's development, AWPT is committed to ensuring quality standards and continued investments in new technology as well as human resources in order to meet demand.
