Press Release

Asia World Port Management celebrates 20 years in Myanmar's port services industry

- *AWPM is set to play a key supporting role in the present and future growth of Myanmar and its people*

YANGON – 25 April 2016 – Asia World Port Management Company Limited (“AWPM”) celebrates two decades of successful port services in Myanmar today.

Built on the vision of a long-term plan to meet the growing development of the country at that time through effective transport infrastructure, AWPM's port facilities was the first local private investment as part of a national initiative to develop the Ports of Yangon.

Since then, AWPM has established itself as one of the leading players delivering quality, efficient and professional port services that are in line with international service standards.

With trade flows expected to grow as the country undergoes economic reforms, AWPM is committed to ensuring quality standards, and has slated ongoing investments in new technology as well as human resources in order to meet demand.

Plans are also in place for upgrading works on all four of its wharves.
